PETITION TARGET: Nottingham City Council

Nottingham City Council is planning to close Wilford Library. There has been no consultation about this decision and the views of library users have not been sought. The elderly, disabled people and young children will be particularly badly affected by closure because other libraries are well over a mile away and not easily accessible from Wilford Village by public transport. The library is in an area where there are 2 large secondary schools and 2 primary schools. It is a public facility of major importance to our community – the only one remaining. We do not want to lose it.

We the undersigned users and supporters of the library request that the Council keeps Wilford Library open and works with local residents to consider ways of maintaining a permanent library in Wilford.
